Research Faculty-Extension Nutrition Specialist

Location: Moscow, Boise

Division/College: Col of Agricultural & Life Sciences

Employee Category: Faculty

Pay Range: \$65,000 - \$75,000 per year

Full/Part Time: Full Time

Position Summary:

The University of Idaho Department of Family and Consumer Sciences seeks an Extension Specialist to join the Family and Consumer Sciences team. The position is a 12-month tenure track position; 70% Outreach and Extension, 25% Scholarship and Creative Activities; 5% University Service & Leadership. Salary commensurate with qualifications/experience.

This is an Assistant Professor/Associate Professor position with responsibilities focused on providing research based educational programs that meet the needs of the department as well as leadership and coordination on a statewide basis.

The successful candidate will develop an externally funded, internationally recognized research and extension program focusing on Health and Nutrition.

This position will require presentation of research seminars, participation in professional meetings, and publishing in refereed journals. Research-based information will be delivered to clientele groups at appropriate meetings and through extension publications and appropriate media outlets. Funding for extension and research programming will be obtained from external competitive grants.

Location of the position will be determined by final applicants' preference to be located in Moscow, Idaho or Boise, Idaho.

Minimum Qualifications:

- Ph.D. required in Nutritional Sciences/Human Nutrition, Public/Community Health, Health Communications or closely related field.
- Minimum 2 years experience in community nutrition programs/public health interventions.
- Basic understanding of the Cooperative Extension System, the land-grant university,
- Ability to provide leadership and coordinate nutrition education programs that address nutrition needs throughout the life cycle.
- Evidence of effective teaching ability and skills in university and/or community-based programs.
- Ability to conduct research and evaluation projects.
- Ability to support Extension educators in their scholarship efforts.
- Knowledge, skill and experience in the use of computers and distance learning technology for educational programming and management..

- Demonstrated effective oral and written communication skills, including the ability to adapt research materials for effective oral and written presentations and documents.
- Demonstrated ability to effectively reach and work with diverse audiences.
- Ability and willingness to travel, and valid driver's license (monthly reimbursement provided).

Preferred Qualifications:

- Extension or similar work experience in formal or non-formal community education.
- In-depth coursework and experience with educational program evaluation.
- Experience in web development, social media and/or distance education and communication.
