President's Message

Carol Chandler (OH), 2012-2013 NEAFCS President

NEAFCS Colleagues,

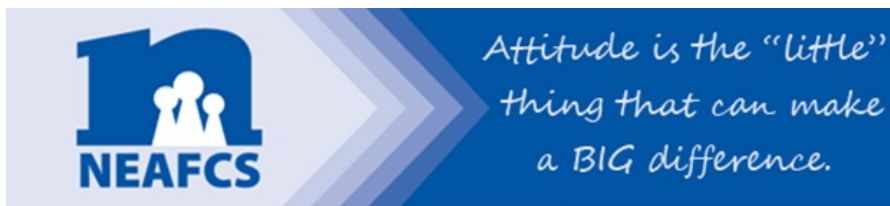

Have you ever wondered ~~Galaxy Professional Development Conference is this a?~~ The opportunity

The Galaxy Conference:

- Allows the JCEP partner organizations to showcase their work as a unified group of extension professionals
- Demonstrates Extension's commitment to teamwork and synergy
- Provides an opportunity to foster a sense of common purpose and organizational unity through collaboration
- Provides Extension professionals an opportunity to attend professional development programs offered by partner organizations
- Provides exceptional resources and speakers for general sessions that might otherwise not be possible
- Provides a unique opportunity to collaborate across disciplines
- Provides opportunities to present peer-reviewed materials and participate in scholarly professional development activities
- Enhances the visibility, stature and reputation of the Extension System
- Provides for effective use of limited resources of Extension professionals and their associations
- Focuses on a common mission as part of the Extension System and improves Extension's visibility
- Provides opportunities for participating organizations and associations to accomplish key annual goals
- Provides opportunities for professional networking within Extension.

Everything from registration right through the events of the conference will be different from what our members have experienced in the past.

My theme for this year has been "Attitude is the little thing that makes a BIG difference." I chose that theme because it is true.

The Galaxy Conference offers us the unique opportunity to experience our professional development opportunities in a new and exciting way.

I encourage you to plan to attend and see for yourself the value of meeting with all of our Extension colleagues.

Looking forward to seeing you in Pittsburgh in September!

Carol
